

Register today: SRNA Environmental Telehealth
Nursing Without Harm: EcoAction from the Core of Healthcare

This year the SRNA and the Environmental Sustainability in Nursing Professional Practice group are developing an educational workshop under our 2010 theme: **Chemical Calamities: targeting the toxic chemicals that have become a part of our practice and our personal lives.**

This one-day telehealth workshop will focus on toxic chemicals that have become a part of our environment such as chemicals present in plastics, personal care products, and cleaning products. Presentations will address how to identify toxic chemicals, as well as how to develop messages we can use to motivate individuals to change their personal behavior and advocate for chemical policy reform. This is your opportunity to learn about issues, share experiences, and build networks for action.

When: March 16th, 2010 from 10am to 4pm

Where: Saskatoon City Hospital Auditorium
Regina Wascana Rehab Auditorium

Cost: \$40.00 or \$20.00 Student and Retired Rate. Lunch & membership in PPG included
